

DYNAMIC ATHLETE

Youth Instructional and Dynamic Performance Training

Week 9 August 8 – 12

Participating in a wide variety of sports and various disciplines of athletics allows young children and adolescents to gain different kinds of skills that they can apply from one sport to the next. Hand-eye coordination, balance, endurance, explosion, communication, and athletic agility. This week will allow each camper to experience a wide variety of sports skills such as ultimate-frisbee, rugby, basketball, soccer and much, much more. This dynamic opportunity will provide multiple experiences that will motivate them for future sports success and achievements!

Cross Training Program

Total body conditioning will be the emphasis for cross training each week and will focus on the specific muscle groups that will allow the athlete to develop muscular strength and endurance to coordinate skills and improve physical performance throughout a multitude of sport movements effectively and efficiently. Agility training will focus on footwork and balance to develop quickness, speed, and power to assist in overall sport performance.
