

Where Kids Can Be Kids

2020 Cooperative Games

ALL campers participate in weekly themes that incorporate special events, hands on science activities (STREAM), a young naturalist program, hydroponics, gardening, life skills, character development & spiritual enrichment, and good old-fashioned summer fun rolled into one! This one of a kind camp is in Medina, Ohio and is available to children 6 (completed Kindergarten)-12 years old.

Find more info and register online at www.countrylifekidscamp.com

Week/Dates	Weekly Theme	Special Event	Cooperative Games
Week 1 June 8-12	Fort CLKC Go back in history and relive life in Ohio during the Civil War era. Learn how agriculture was the secret that helped develop and advance our great state. Discover how settlements and economic booms have positively and negatively affected our Ohio ecosystems through the years. Engage in search and rescue missions, create authentic Civil War encampments and learn how to survive in a primitive time.	Civil War Living History - Learn from Civil War reenactors as they create a hands-on interactive experience that will take you back in time.	1800s Classic Games During the 1800s, children's pastimes looked a bit different than they do today; but the fun remains. Take a walk down memory lane and learn the rules and skills of classic games such as marbles, dominoes, croquet, baseball, running hoop and stick, egg and spoon races, sack races and many more period relays that are sure to excite.
	The Game of Survival Be ready to face survival scenarios that will require you to learn the elements humans and animals need to survive in biomes around the world. Learn about renewable energies that help us survive in extreme climates. Explore the effects of hydro, solar, and wind energies that help us continually advance our abilities to survive, adapt, and grow.	U.S. Army Obstacle Course Challenge Engage in a Physical Training session with local U.S. Army Instructors and learn from those who protect our great Nation how to stay healthy, active and safe.	Obstacle Course Challenges Put your strength, speed, balance, and agility to the test as you embark on a week full of Obstacle Course challenges. Campers will be dared to try new obstacles and push themselves to levels they never knew that they had. We believe they will run faster, jump higher and be stronger than ever before. Then enjoy the grand opening of our NEW Gaga Ball Pit! We will learn about the rules and test our skills in this new addition to camp fun!
Week 2 June 15-19	Mission Specialist Training Congratulations, you have been selected to be a new member of our Mission Specialist Team specializing in hydroponics. You will be tasked to integrate a new Hydroponic Beta Bucket system on camp property. But first, you must learn how seasons have played an enormous influence on our ecosystem and plant growth. Study how moon phases and constellations have mapped our weather predictions for centuries depicting agricultural success. Then meet with our local Raptor Center experts and learn the secret of flight through the species of birds and test the concepts through paper airplane designs.	NASA Visitation and Rocket Launch Meet a local NASA educational specialist and learn about NASA's plans for the future of spaceflight. Discover how we can become a part of the journey, then launch a rocket into the sky at full throttle and watch it soar!	Space Themed Games Become a galactic explorer with themed dodgeball, kickball and laser tag challenges. You and your team of astronauts will dodge asteroids, shoot lasers, and discover new planets in your journey through the CLKC galaxy.
Week 3 June 22-26			

Week 4
June 29-
July 3

CLKC School for Wizards

Step into a thrilling world where magical wands, amulets and potions thrive. The sorting hat will speak and assign you a House. In that House, you will journey through different classes prepping you for the Tri-Wizard Cup Challenge. You will learn how animals use mimicry and camouflage to create a magical illusion to outwit their enemy. Make the perfect potion come alive as you unveil the mystical powers of chemistry, and lastly, craft your very own wizard wand that suits your personality.

Special Event

Tri-Wizard Cup Challenge - This is a challenge of three tasks that cannot be revealed, for it is a secret quest that will put your House to the test!

Quidditch & Wizard Chess

Harry Potter was the Seeker on his Quidditch team: what will you be? Learn the rules of Quidditch and compete in wizarding matches that are sure to excite! Then test your skills with a life-size Wizard Chess game where the pieces are you.

Week 5
July
13-17

Fear Factor

Challenge your levels of trust and courage while learning how animals and humans sense and control dangers and threats. Will you fight or flight? We will test our senses, see how life changes without them, and learn how to ignite them using nature sounds and music as our guide.

CLKC's Senses Lab

Dr. I.B. Strange makes a visit with her senses lab. Touch, smell, see, listen, and even taste, if you will, the delights of everyday science. Concoctions are Dr. Strange's specialty, so be ready to assist her in CLKC's very own lab. Fear not, learning is all around you and knowledge is power.

Team Challenges

Conquer your fears with daily obstacles using our laser tag and Nerf guns as your tool of offensive and defensive strategies. Your senses will heighten during our intense games of capture the flag, so beware! Working together as a TEAM to sense and control threats will be your greatest victory.

Week 6
July
20-24

A Bug's Life

Investigate creatures that are creepy, sneaky, scary and gross! These small bugs are essential components for the balance and conservation of our ecosystem. Explore our forests, ponds and wetlands that play host to these amazing creatures. Dive into learning about our local bat, bird, and fish habitats and how they survive on the millions of bugs in our camp's circle of life. Learn about different types of fishing techniques, including fly and cane fishing.

ODNR Fishing and Archery Program

Learn how to be an angler and archer through an intense day of stations created by the Ohio Department of Natural Resources. End the day with a competitive fishing derby and archery challenge.

Backyard Games

Have some backyard fun as you learn the rules of classic games! Don't squish any bugs while you play cornhole, bocce ball, ladder ball, and Frisbee golf. You'll be the secret weapon or key opponent at any backyard party with your new skills in these classic summertime games.

Week 7
July
27-31

Tales of Adventure

Each day travel to a new imaginative world of fairytales and magic. Be the guests of Belle and Beast for tea-time - learning table etiquette, a classic ball room dance, and how to use a flower press. Then soar to Never Land to ward off scurvy pirates. Test your skills in pool noodle swordsmanship and go on hunts looking for lost treasure. Travel to the mystic mountains of Arendelle and explore the frozen properties of ice and snow in summer. Heigh-ho to the gem mine and find precious gems with the seven dwarfs then head back to bake apple crisp in our Dutch ovens over an open fire. Lastly, let your conscience be your guide as Geppetto helps you create string puppets that will surely shine.

Fairy Tale Treasure Hunt

CLKC's very own Fairy Godmother visited last night and left a bounty of treasures behind. Spend the afternoon hunting for her magical stash. It's finders' keepers, but greed will not make you a winner. Take one of each trinket making sure to help your fellow mates figure out what she's left behind. You will search both high and low, in water and on land to gather the goods needed to frame your very own Tale of Adventure. Use your map reading skills and get a clue to experience this scavenging adventure!

Interactive Ball Games

Fairy tales are as classic as the games this week! You'll play high energy interactive games of soccer such as Space Invaders, I Need a Doctor, Three Ways to Win, Behind Enemy Lines, Bumper Cars and Cat and Mouse. In basketball, the games will be a "Knock Out" with Around the World, Firing Squad, Musical Basketballs, Dribble Limbo, Homerun and Buzzer Beaters. Learn some of the fundamentals of each with an emphasis on FUN!

Week 8
Aug
3-7

World Wildlife Explorers

Wildlife and science collide in an extraordinary week of learning about biomes, habitats, and animals from around the world. Every day will take you to a new continent unveiling amazing discoveries in the arctic, savannah, deciduous, desert, and tropical lands. Put on the hat of a zoologist as we create our own Zoo through STEM fun embarking on all the responsibilities, management, and marketing duties required to make it thrive.

Akron Zoo Mobile

Where in the World? Explore the different places animals call home, from the desert to the rainforest. This program includes three animal ambassadors for hands-on experience.

Scavenger Hunts

Become a wilderness explorer as you scour the grounds of Country Life Kids Camp in our daily scavenger hunts! Each day, you and your fellow explorers will be challenged with finding new and exciting things around our camp. Will you discover the clues and unlock the unknown?

Week 9
August
10-14

Inspiring Engineers of Tomorrow

Combine engineering, art, and math into one as you snap into daily LEGO building challenges. Discover through Earth topography how animals and humans are harmonious engineers. Witness how they have worked together for centuries to create timeless structures. Learn how to read maps and navigate using LEGO-inspired sundials and compasses.

Animal Architects

Wolf Creek Environmental Center Guest Speaker - Humans aren't the only animals that build structures; the animal kingdom abounds with talented architects. From dams to nests to body armor, these feats of animal ingenuity will amaze you!

Hodgepodge

LEGOS can make a hodgepodge of things, and this week we will be playing a hodgepodge of games! Gatorball, kickball, speedball: we'll play them all, but end the week with a LEGO Field Day to celebrate the summer!

“Where Kids Can Be Kids”

Our Mission is to prepare our youth for the future by instilling in them character... values... leadership... and a moral compass by which to lead their lives.
